Avalara's Sales Tax Suite

Sales Tax is complicated. Avalara makes it easy.

AvaTax extends the power of your ERP with integrated end-to-end sales tax management automation. Cutting-edge technologies and processing logic manage complicated tax issues, such as situs, nexus, tax tiers, tax holidays, exemption certificate management and product taxability rules.

AvaTax delivers address validation and sales tax calculations on-demand. CertCapture digitally creates, stores and accesses exemption certificates at the point of sale. Returns closes the loop on your sales tax compliance process – it completes and files all forms and remits your sales tax with one easy payment.

Fast

Deliver real-time sales tax calculations as the transaction is taking place via a secure, encrypted Internet connection – without disrupting your existing workflow. Streamline the exemption process for you and your customer. with online certificate collection. Process returns on-time, every time with automated filing and remittance.

Easy

Seamless integration with existing business systems eliminates the guesswork. No more time-consuming collection of information for returns completion or tracking jurisdictional requirements for filing. Produce the correct exemption certificates at any time, from anywhere. Reduce turnaround time for auditor requests and customer purchasing.

Accurate

Forget having to track rates, rule changes and tax holidays: AvaTax calculates using up-to-date, real-time sales and use tax rates and rules. Ensure accuracy using AvaTax address validation, sourcing rules, product taxability and jurisdiction assignment – accurate down to the rooftop level. Reduce your audit risk with Avalara Returns filing and remittance.

Affordable

Eliminate hardware acquisition and maintenance costs with our cloud-based service model. Simple, out-of-the-box integration reduces implementation and training costs. Subscription-based pricing is scalable to meet the needs of customers of all sizes.

infor
